

NOV 01 2010

In regards to Docket ID No. EPA-R03-OW-2010-0736, I oppose implementing the proposed Chesapeake Bay TMDL limits because...

- NY already has the cleanest water in the watershed and effective pollution control programs.

- The proposed additional limitations will be an unfair burden on NY agriculture, municipal services, taxpayers, businesses, and residents.

- The EPA model is flawed, not proven, and not suitable for being the basis for the proposed limitations.

- Most specifically, the EPA should incorporate the model revisions recommended by the DEC in their Watershed Implementation Plan.

Sincerely,

Joanne M. Cross
